Tools

Figma, Miro, Photoshop, Lottie, Premiere Pro, After Effects, Illustrator

Dev

React, Tailwind, JavaScript, TypeScript, HTML/CSS, NextJS, Framer, Claude Code

Experience

Product Designer & Developer — Aug 2025 – Present

Creatorain · Atlanta, GA, USA

- Lead Product designer and frontend engineer for a B2B SaaS influencer marketing platform, leading product design and development from wireframes and high-fidelity prototypes to production code across the client dashboard, creator portal, internal admin panel, and marketing site using React, Next.js, TypeScript, TailwindCSS, and Framer. Established the platform's design system and component library (30+ reusable components including advanced data tables, editors, modals, progress trackers, and form systems) to ensure visual consistency and accelerate feature development across applications.
- Designed complex product systems including AI-powered outreach inboxes, chat interfaces, campaign progression tracking, and advanced influencer discovery tables with rich filtering and workflow tools. Built core workflows such as a multi-step campaign creation wizard, OAuth-based account linking, creator content submission pipelines, and reservation flows, while also producing brand visuals and marketing assets for the platform.

Product Designer — Aug 2024 – Jul 2025

AnswersAi · California, USA

- **Redesigned and rebuilt the core web app** for AnswersAI's SaaS AI learning platform, consolidating lecture mode and the AI chatbot into a unified interface aligned with the company's design system. Ideated, designed, and implemented new features based on user research and feedback, improving information architecture, simplifying user flows, and reducing friction across key product experiences.
- Designed hundreds of interfaces across the mobile app, browser extension, and product websites, and revamped both B2C and B2B landing pages while producing Lottie animations for multiple consumer mobile apps. Contributed to **reducing churn from 20% to 6%** and supporting growth to **$3M ARR** prior to the company's acquisition by **Quizlet.**

UX Designer — July 2022 – Aug 2023

Ozibook · Bangalore, India

- Led a team of 5-8 interns over 6 months on UX design & strategy on an EdTech SaaS project at a foundling start-up. Established **0-1 design systems** and led design on client projects, including landing pages, user interfaces and promotional material for various companies like **iWPS Global**.

- **Top 10 finalist** in **Toshiba KIOXIA Hackcellence Fest '21** (MEA & South Asia - Pacific), **Finalists** in **HackMol 2.0**, organized by Google Dev club, NIT Jalandhar
